AGRICULTURAL STATISTICS

OF

INDIA

FOR THE YEARS

1903-1904 TO 1907-08

VOLUME II—NATIVE STATES

Prefatory Note

The total area of Native States in India is 483,640,981 acres with a population of 64 millions. These are divided for purposes of Agricultural Statistics into two main classes:—

(1) *Tributary or Feudatory States under Local Governments.*—The total area of these States is 168,051,017 acres with a population of 23½ millions exclusive of the population of certain areas which were not distinguished from British territory in the Census of 1901. There are no agricultural statistics available for this area except for the following three States in the Panjab:—

	Area (acres)	Population
Patiala	3,772,148	1,596,692
Nabha	620,414	297,919
Bahawalpur	12,700,000	720,877
TOTAL	17,092,592	2,615,518

(2) *States having direct political relations with the Government of India.*—These are divided into the following main groups:—

	Area (acres)	Population
Baluchistan (Native)	51,821,700	467,559
Hyderabad	52,926,720	11,141,142
Baroda	5,183,360	1,952,692
Kashmir	51,776,000	2,005,578
Mysore	18,841,774	5,419,800*
Rajputana States	81,626,240	9,723,301
Central India „	50,414,080	8,628,781
TOTAL	315,589,984	40,268,853

No agricultural statistics are available for Baluchistan (Native), Hyderabad, Baroda, or Kashmir, and of the remainder returns are only received from the following fifteen States:—

	Acres	Population
Mysore	18,841,774	5,419,800*
<i>Rajputana States—</i>		
Jaipur	9,970,560	2,658,666
Bikaner	11,919,958	584,027
Mauwar	22,410,240	1,985,565
Tonk	1,650,120	273,201
Alwar	2,030,206	828,187
Kishangarh	549,120	90,970
Bharatpur	1,263,408	626,665
Jhalawar	527,210	90,175
Kotah	3,637,700	544,879
<i>Central India—</i>		
Gwalior	11,845,264	2,938,001
Indore	6,080,000	850,690
Rajgarh	608,863	93,496
Narsingarh	172,769	72,890
Nagod	372,694	67,092
TOTAL	98,188,946	17,100,204

* Excludes the population (89,509) of the civil and military station of Bangalore

The total area of all the eighteen States from which returns are received is therefore 115,281,538 acres. From this total deduction must be made for 55,468,630 acres of land which is held on jagir, muafi, and other privileged tenures, or which is unsurveyed. The net area actually covered by these statistics is, therefore, only 59,812,908 acres by professional survey, or 59,858,842 acres according to village papers, of which 4,722,572 acres are under forest and 15,211,224 acres are either absolutely barren, or otherwise unfit for cultivation, or have been definitely assigned to purposes other than agriculture. Of the remaining 39,895,016 acres, 13,943,631 acres are available and fit for cultivation but not actually cultivated, and 5,921,805 acres are current fallows. The area actually cultivated, therefore, for which figures are given in these tables is 20,029,610 acres.

The dates from which the Agricultural Statistics have been prepared in the 18 Native States mentioned above are as follows:—

Mysore	1886-87
Jaipur	1892-93
Gwalior	1890-97
Bikaner, Marwar, Tonk	1893-99
Alwar, Bharatpur, Kishangarh, Jhalawar, Kotah	1900-01
Indore, Rajgarh, Narsingarh, Nagod, Patiala, Nabha, Bahawalpur	1907-08

The year to which the statistics relate is different in the different States —

Year ending 31st March	in Bikaner
„ „ 31st August	„ Alwar
„ „ 30th June	„ Mysore, Gwalior and Jaipur
„ „ in September	„ Bharatpur and Kishangarh
„ „ 30th September	„ Malwa, Kotah and Jhalawar
„ „ 31st October	„ Tonk

A glossary is attached to this note giving the meaning of vernacular words used in the Explanatory Notes which are prefixed to the Tables in this volume.

Vernacular terms used in the Explanatory Notes

- Bhaiyachara* (Alwar).—Villages held by a number of families, by possession without reference to shares.

TABLE No. 1--AREA

In this table should be entered the total area of each State, the areas for which statistics are and are not available being separately entered.

GENERAL NOTES

Column 2 (page 8).—The professional survey is that carried out by the Survey of India in Northern India, and by the corresponding Departments in Southern India. In States where there has been no professional survey, the figures are based on the best information available.

Column 3.—In this column is deducted the entire area for which the statistics required for Tables Nos. 2 and 3 are not forthcoming in whole or in part. This area comprises chiefly estates held on privileged tenures which have not yet been surveyed and which possess at present no agency for the annual collection of Agricultural statistics. As surveys extend and the organisation of village statistical establishments develops, the area in this column is reduced, and that entered in the next columns (4 and 5) and dealt with in Tables Nos. 2 and 3 is correspondingly increased.

Columns 4 and 5.—Column 4 is a check on the accuracy of column 5. In the latter "village papers" means "the papers prepared by the village accountants." In States where no village papers exist, the figures in column 4 are repeated in column 5. The area in village papers may differ somewhat from that given by the Survey Department, (a) because, while the survey area is calculated in block, the area by village papers represents the added total of field and village areas; and (b) because the system followed as regards the inclusion or exclusion of areas covered by water, buildings, roads, and railroads is not always uniform in the two sets of returns.

PROVINCIAL NOTES

Lyonsie

Column 2 (page 9) states the whole area of the State as ascertained by revenue survey.

Column 3 exhibits the area of jodi, kayamgutta, and sarvmanyam villages and jaguts, for which the statistics required for the other tables are not available at present.

Column 5.—The figures in column 4 are repeated.

Swalior.

Column 2 (page 9) states the whole area of the State

Column 3 states the estimated areas of jagir, muafi, nbau, tanka, istamrar, and such other villages as are still unsurveyed.

Indore.

Column 2 (page 9) states the whole area of the State

Column 3 states the areas of jagir, istamrar, and forest villages, and a portion of the unsettled villages of Bhicangaon tract of the Nimar district, also of some of the outbandi villages.

Rajgarh.

Column 2 (page 8) states the whole area of the State.

Narsingarh

Column 2 (page 8) states the whole area of the State.

Nagod.

Column 2 (page 8) states the whole area of the State.

Jaipur.

Column 2 (page 9) states only the khalsa area, forming about one-third of the whole area of the State.

Bikaner.

Column 2 (page 10).—Until 1903-04 this column stated the khalsa area only; from that year it shows the whole area of the State.

Column 3 states the areas of jagir and such other villages as are still unsurveyed; it also includes the areas which formerly were parts of jagir villages, but which, after the completion of the settlement operations, either lapsed to or were resumed by the State.

Maswar.

Column 2 (page 10) states the whole area of the State.

Column 3 states the areas of jagir and such other villages as are still unsurveyed. It also includes the area of those khalsa villages which have not yet been regularly assessed; these are chiefly the latest acquisition to khalsa under the law of escheat.

Columns 4 and 5.—The area by village papers does not differ from the area by survey, for, although differences occur under the different classes of soil, the total area of each village is the same in both cases

Column 2 (page 10) states the whole area of the State
Column 3 states the area of jagir villages.

Tonk.

Column 2 (page 8).—As there has been no revenue survey so far, this column states the whole area of the State according to the best information available.

Column 3 states the areas of jagir, muafi, and istamrar villages, the boundaries of which have been demarcated, but for which the statistics required for other tables are not available.

Columns 4 and 5—In the absence of any revenue survey data, the figures in column 5 are repeated in column 4.

Column 2 (page 8) states the whole area of the State, inclusive of jagir and other alienated *Kishangarh* lands, taken from the survey maps of the Government of India.

Columns 2 and 4 (page 10) state the whole area of the State according to the professional *Bharatpur* survey of 1855.

Column 5 states the whole area of the State according to the settlement records.

Column 2 (page 8) states the whole area of the State.

Jhalawar.

Column 3 states the area held by jagirdars and udaldars, as well as the muafi plots in the khalsa villages for which no separate record is maintained.

Column 2 (page 10).—Until 1903-04 this column excluded the entire jagir and muafi *Kotah* villages and the Kotri of Bulwan; from that year it states the whole area of the State.

Column 3 states from 1903-04 the entire jagir and muafi villages which have not yet been surveyed, in addition to the detached revenue-free plot situated in khalsa villages which alone appeared in this column up to 1902-03.

Column 2 (page 8) states the whole area of the State.

Patiala.

Column 2 (page 8) states the whole area of the State

Nabha.

Column 2 (page 8) states the whole area of the State.
Column 3 states unsurveyed areas.

Bahawalpur.

TABLE No. 2—CLASSIFICATION OF AREA

The first part of this table deals with the classification of the area entered in column 5 of table No. 1, and gives the proportions (columns 2 and 3) withdrawn from cultivation by inclusion under forests or for some other reason, (column 4) cultivable land available but not yet taken up, (column 5) land occupied but not under crop during the year of report, (column 6) net area sown, that is, after deduction of the area cropped more than once in the year. The second part (columns 8 to 13) gives the area irrigated from various sources, and (columns 14 to 18) the distribution of the irrigated area under specified crops.

GENERAL NOTES

Column 2 (page 12).—The definition of the term "forests" is as follows:—"Any land classed or administered as forest under any legal enactment dealing with forests." Any cultivated areas existing within such forests may be excluded and entered in column 6 (net area cropped), an explanation being given in a note.

Column 3 includes all land absolutely barren, and also all land covered by buildings, water, roads, or otherwise appropriated to use other than agriculture.

Column 4 includes groves not classed in the cropped area. Areas under bamboos and thatching grass, when not forming parts of forest areas, are included in this column.

Columns 8 to 13 (pages 12 and 13) state the area actually irrigated during the year, areas cropped more than once being counted once only.

Columns 14 to 18 state the gross area of irrigated crops, areas cropped more than once being counted as separate areas for each crop. This accounts for the excess in some cases of the total area of crops irrigated (column 18) over the total area irrigated (column 13).

PROVINCIAL NOTES

Column 2 (page 16) states the areas of State and district forests and of plantations.

Mysore.

Column 3 includes not only lands absolutely unfit for cultivation, but also lands reserved for pasture, and plantations intended for public use and therefore left uncultivated. A large portion of the pasture lands is fit for cultivation, and is given out for cultivation from time to time under special orders, such lands when given out for cultivation being transferred from columns 3 to 5 or 6 as the case may be.

Column 4 states unoccupied assessed waste.

Column 5—There is no system of fallows, that is, lands are not systematically left uncultivated for the purpose of giving them rest. Individuals occupy large areas and pay full assessment thereon, leaving portions uncultivated, generally for the use of their cattle. For purposes of account the difference between the areas of the lands occupied by individuals and of those actually cultivated by them is taken as fallow. The lands occupied and assessed are sometimes unfit for cultivation, having been taken up on full assessment merely for use as pasture; but the exact area of all such lands cannot be ascertained, though it cannot be large.

Column 6 (page 26).—Previous to 1901-02 the figures represented the areas prepared for sowing whether actually sown or not. Since then only the areas actually sown have been shown in this column.

Columns 13 and 18 (page 27).—In Bikaner the soil cannot stand annual cultivation; land is therefore sometimes irrigated, but left unsown until the following year. This accounts for the excess in some cases in the total area irrigated (column 13) over the total area of crops irrigated (column 18).

Column 10 (page 15).—"Tanks" includes canals and bunds.

Alwar.

Column 2 (page 14) states the preserved forests in the khalsa areas exclusive of the jagir *Kishangarh*, and other alienated lands.

Column 2 (page 34) includes grass preserves (locally called the State *Rundhs*) and hills.

Column 4 includes areas out of cultivation or which have not been cultivated for the last four years or upwards, but excludes State grass preserves (*Rundhs*). Bharatpur.

Column 5—The maximum period for which land thrown out of cultivation is reckoned as fallow is three years.

Column 8 includes area irrigated from the Bareta Bund, constructed by the State Public Works Department.

Column 2 (page 34).—Forest in certain jaganas of the Kotah division, not having *Kotah*, been separately surveyed, are included in columns 3 and 4.

TABLE No. 3—AREA UNDER CROPS

This table states the gross area sown with each crop, irrespective of irrigation and double cropping, the area under the latter being included in the statement, but subtracted in column 41 (area cropped more than once). The area is that stated in column 6 of table No. 2.

GENERAL NOTES

In this table are entered the areas actually sown, whether the crop comes to maturity or not, except in cases when fields, owing to the failure of the first sowings, have been devoted to other crops: in such cases the area first sown is omitted.

In cases where two or more crops are grown together, an estimate is made of the area covered by each, and the areas so estimated are separately returned. The estimate is made by the village accountant, or is subsequently determined on formulae prescribed by the provincial authorities.

Columns 10, 15, 19, 22, 27, 34, 38 and 39 (pages 34—37).—The selection of crops for inclusion in these columns is left to the local authorities

PROVINCIAL NOTES

The areas under mixed crops are distinguished and entered under the respective crops of *Gwalior*, which they are composed. The area of failed crops is included except when, owing to the failure of the first sowings, it has been devoted to other crops: in such cases the area first sown is omitted.

Column 14 (pages 51—53) includes linseed and rapeseed for which separate statistics are not available.

Previous to 1901-02 the figures in this table represented the area on which crops came *Bilauar* to maturity. Since then the area actually sown with crops has been shown.

The areas under mixed crops are distinguished so far as practicable and entered under the *Bharatpur* respective crops of which they are composed. The area of failed crops is included except when, owing to the failure of the first sowings, it has been devoted to other crops: in such cases the area first sown is omitted.

TABLE No. 4.—LIVE-STOCK, PLOUGHS, AND CARTS.

This table deals with agricultural stock.

GENERAL NOTES.

Animals in towns, cities, and cantonments are included where it is possible to secure their enumeration. Oxen and buffaloes not old enough for work or to produce young are classed as "young stock."

The figures generally are greatly lacking in accuracy.

PROVINCIAL NOTES.

Until 1898-99 statistics were collected every year by the shanbeg and patel of each village by enquiry or inspection. Since that year a census is taken every five years as nearly as possible simultaneously throughout the State. The last census was taken in September 1904. Stock in municipalities has been included since 1896-97.

Animals in cities and towns are not included.

A cattle census is taken every fourth year simultaneously throughout the State. The last census was taken in December 1901. Animals in towns, cities, and cantonments are included.

A census of cattle is taken by the patwaris each year at the time of kharif crop inspection in September. Animals in cities, towns, and military lines are included. Oxen and buffaloes not old enough for work or to produce young are treated as "young stock."

TABLE No. 5—LAND REVENUE

This table is intended to indicate the relation between area, population, and land revenue, or, in other words, to exhibit the mean burden of the State assessment on the land assessed to it and on the community at large.

GENERAL NOTES

The following rules were prescribed by the Government of India in 1893 for filling in this table:—

Entry 1 in general table No. 5 (pages 90—91), column 2 in provincial tables Nos. 5 (A to D) (pages 94—101).—The varieties of tenure entered should be included, as far as possible under one or other of the following, namely, (1) raiyatwari, (2) zamindari and village communities (temporarily settled), (3) zamindari (permanently settled).

Entry 2 (a) in general table (pages 90—91), column 3 (a) in provincial tables (pages 94—101).—Areas held revenue-free or at privileged rates should be deducted, but the deduction need not be made where such areas are in any case less than an entire village, and where there is any difficulty in estimating the corresponding deduction to be made in the population head 10 (column 11). Areas should not be entered in this column merely because the assessment due from them has been suspended or remitted on account of short crops, or for other special reasons.

Entry 3 in general table (pages 90—91), column 4 in provincial tables (pages 94—101).—This column should be sub-divided into (a) total fully assessed area for which returns are available, and (b) area cultivated out of the area given in head (a). The latter head should be equal to the former after deducting current fallows and fully assessed waste.

Entry 4 in general table (pages 90—91), column 5 in provincial tables (pages 94—101).—Where land revenue includes the zamindar's share, the net demand should be entered, and the table should state the payments due by the zamindars to Government, not those by the raiyats to the zamindars. The actual realisable demand for the year should be entered, after excluding arrears for past years. Sums remitted on account of unoccupied lands, short crops, etc., should be excluded. This column should include all the heads classed as "Land Revenue" in the Civil Accounts.

Entry 7 in general table (pages 92—93), column 8 in provincial tables (pages 94—101).—As in entry 4 (column 5), but only ordinary land revenue on fully assessed areas is to be entered.

Entry 9 in general table (pages 92—93), column 9 in provincial tables (pages 94—101).—To be entry 7 (column 5), divided by entry 3 (a) [column 4 (a)].

Entry 10 in general table (pages 92—93), column 10 in provincial tables (pages 94—101).—To be entry 7 (column 5), divided by entry 3 (b) [column 4 (b)].

Areas under forest are included in entry 1 (column 2) under the prevailing tenure of the State.

The population in entry 5 (column 6) is that of the last general census.

PROVINCIAL NOTES

Mysore

Column 3 (a) (page 94) states the area entered in column 3 of table No. 1 and in column 4 of table No. 2.

Column 3 (b) states the area entered in columns 2 and 3 of table No. 2.

Column 4 (a) states Government occupied lands, including minor inams in Government villages (columns 5 and 6 of table No. 2).

Column 4 (b) states the area actually sown (column 6 of table No. 2).

Column 5 states the total realisable land revenue, including miscellaneous land revenue.

Column 8 states the total raiyatwari demand, plus the quit-rent due on minor inams in Government villages.

Gwalior.

Column 2 (page 95) states the net area by survey (column 4 of table No. 1).

Column 4 (a) includes area not fully assessed which cannot be separated from area fully assessed.

Column 5 states "Land Revenue" as defined in the Civil Accounts, and includes cesses which cannot be separated from the land revenue.

Column 8 states only ordinary land revenue with cesses.

Columns 9 and 10.—The figures in these columns represent the incidence of land revenue on areas both fully and partially assessed.

Column 11.—Includes population of area not fully assessed which cannot be separated from that of fully assessed area.

Marwar.

Column 4 (b) (page 95) states not only the area actually under crops, but also fallow lands, as revenue rates are assessed on the total cultivated area, including fallows. Hence the area stated in this column exceeds the total area in table No. 3.

Columns 5 and 6 relate only to Khalsa area, as statistics for these columns are not available for the whole area of the State.

Tonk.

Column 2 (page 93) states the net area by survey (column 4 of table No. 1).

The classes of tenure are zamindari and village communities, the former comprising *dhair*, *zamindari-bil-ijmal* and the latter *patidari* and *bhaiyachara*.

Item 1 (page 91) states the area by village papers (column 5 of table No. 1).

Item 2 (a) shows areas covered with forests (column 2 of table No. 2) which are wholly revenue-free.

The table is not prepared, the information not being available.

Kishangirh.

Column 1 (page 100).—The State area leased to cultivators for a fixed term is returned as *Bharatpur*, *raiyaour*. The area leased out on condition of proprietary rights being given to le-sees if they reclaimed land within a fixed term is returned as *zamindari—temporarily settled*; and the rest of the area (i.e., the area remaining after deduction of the *raiyaour* and the temporarily-settled zamindari areas from the total area), is entered as *zamindari—permanently settled*.

Column 3 (a) includes *muafi*, *chauth*, and *istimrar* areas.

Column 6.—The population stated is that of the last census.

Column 11 shows the total population in cases where separate figures for areas fully and not fully assessed are not available.

The whole area stated in this table is classed as “*Khatedari*” and “*Watendai*” *Jhalavar*, equivalent to “*raiyaour*” and “*zamindari*,” respectively.

Item 1 (page 91) excludes entire villages held by *jagirdars* and *udakdars*.

Column 2 (page 101) states the area by village papers (column 5 of table No. 1).

Column 6 includes population of the *muafi* and *jagu* villages excluded from column 2.

TABLE No. 6—TRANSFERS OF LAND

This table is intended to exhibit the number of voluntary and compulsory transfers of ownership of land or tenant right, and the area so transferred. Voluntary transfers mean transfers made by actual contract or gift, transfers by inheritance not being taken into account.

The table is at present prepared only by the States of Mysore and Alwar.

GENERAL NOTES

It is optional with the local authorities to enter or omit transfers of lands held by tenants.

The following rules have been prescribed for the preparation of this return:—

- (1) Changes of entry due to succession, partitions or simple mortgages, are not really transfers and should be excluded from the table, as also should redemptions of mortgage;
- (2) All temporary transfers, such as leases, should also be excluded, but mortgage with possession should be treated as a transfer and entered in the table;
- (3) All transfers made by order of a court should also be included in the table;
- (4) The word "court" in the entry "by order of court" should be held to include a revenue court.

PROVINCIAL NOTES

Mysore.

Only permanent transfers are included as by sale or gift, in which the parties concerned apply for and obtain transfers of revenue registry in the village accounts from which the table is compiled. Thus, changes of registry under orders of civil and revenue courts, as well as those effected in consequence of the sale of land for arrears of Government revenue, are included.

Alwar

Transfers by mortgage with possession, sale, and gift, both of proprietary and of occupancy rights, whether by order of court or by private contract, are shown in this table, and include property confiscated by order of a criminal court, and holdings transferred by order of a civil or revenue court in satisfaction of money decrees or arrears of land revenue respectively.
